

SIZZLING SENSATIONS

One-Page Website Content & Designer Brief

Our Story

Our story started long before Sizzling Sensations.

We grew up in Nigeria with a love for cooking and moved to the UK at 16, shortly after finishing secondary school. Like many people, we followed the path we thought we were supposed to take: A Levels, university, and degrees in Psychology.

But the love for food never really left us.

Eventually, we found ourselves asking: what if we actually followed our dream? What if we took our love for cooking and used it to showcase the Nigerian food and culture we grew up with?

And that's where Sizzling Sensations comes in.

We're twin sisters building a food business inspired by the flavours we know and love, while bringing our own touch to how the food is presented and experienced.

Brief for the Designer

Please create a **visually appealing one-page website** for Sizzling Sensations using the content in this document and the images provided separately.

The website should feel simple, eye-catching and easy to browse. Customers should be able to quickly understand the three ways they can order, view the menus and prices, understand how each service works, and submit an enquiry.

Please avoid presenting the website like a long PDF or large blocks of text. Use clear sections, visual pricing cards and imagery to break up the page.
